9 February 2017

Dear Parents and Carers,

I am writing to update you on planned developments at the school campus in the weeks and months ahead. Firstly we will be improving the signage and appearance of the main entrance to the school in order to make it more attractive and welcoming. We will also be moving visitor parking bays to make it easier for you to park when visiting during the working day.

Security is always a priority for schools, and due to the nature of our campus, we are now installing security gates and new fencing to the side of the reception area. This will prevent cars and delivery vans from driving up past the Reception area whilst children are moving outside; and will also reduce the possibility of strangers walking into the school campus. Security gates will be open at the start and end of the school day. When visiting the school, please sign in at the main reception and our reception team will be happy to help you.

As we approach the summer term, there will be consultations with parents and carers on various issues to help shape our thinking as we plan future developments to improve our school. In the meantime work continues on our new website, and I am hoping that it will "go live" before the Easter holidays. We hope that it will become a central information resource for families, and will welcome feedback as to how we can make it even more helpful.

Thank you, as ever, for your support, and I wish you a happy half term break.

Mr M Antram
Headteacher
