

# GET WITH THE PROGRAMME AUTOMOTIVE ENGINEERING MARINE

## PRE-APPRENTICESHIP & WORK READINESS

**paragonskills.**  
inspiring people to succeed.

# pre-Apprenticeship programme

1 Are *you* aged between 16-18 with an interest in the **Engineering, Marine** or **Automotive** industry?

2 Do *you* want the opportunity to gain valuable skills and experience as an alternative to 6th form?

3 Level 1 courses normally start on a monthly basis - 6 month duration. Level 2 courses normally start in September and January - 12 month course duration. Average 16 hours per week\*

A Certificate in Engineering or Automotive Technologies is an introduction to the **Engineering, Marine** and **Automotive** sectors. The three-day a week course is designed to give *you* the skills needed to progress on to the next level course or an **Apprenticeship**. The course includes Functional Skills in Maths & English, Employability Skills, time in our workshop and work experience.

Just one of the great things about our **pre-Apprenticeship** is that *you* actually get to work on equipment and cars *you* would find in the workplace, whilst:

- ✓ Learning from qualified engineers and technicians
- ✓ Continually gaining practical skills and experience
- ✓ Sharing a learning experience with like-minded people

**Paragon Skills** is a leading provider of specialist **Marine, Engineering** and **Automotive Apprenticeships**, with established connections to a variety of reputable companies. Using our unique vacancy matching service, we will find you the job that's right for *you*.

**Apprenticeships** are work based training programmes for anyone over the age of 16. They give ambitious young people like *you* the chance to get out into the real world and start a career after leaving school.

\*subject to change
