

July 2017

Dear Student

For students planning to study A-Level Mathematics in September 2017

You will remember on the A-Level Induction Day that your teacher mentioned the opportunity to purchase the **CGP Mathematics for A-Level** book for £15. This is an introductory offer from the publisher and we will need to order any books before the end of term. If you still wish to purchase a copy to aid your study through the course then you will need to do so before **Friday 14th July**. You can do this by ParentPay or with a cheque or cash payment to the finance office in school. If you cannot find the book on ParentPay then please contact the school.

It is not a requirement to have this book as other resources will be used in the teaching of the course. However, usually students find having an alternative source of explanations and questions useful for their individual study outside of lessons.

Enjoy the rest of the summer.

Mr J Brown
Assistant Subject Leader of Mathematics
